

Hurricanes are reported on the Irish coast, and fears are entertained that ships now on the Atlantic may suffer. Limerick has been visited by a severe storm. Part of the city is inundated.

The St. Petersburg *Novosti* says that the frontier disputes between Russia and China must end in a war between those countries. China has massed 15,000 troops in Manchuria, and they are being drilled by German officers.

A mob of nationalists attacked a number of Protestant peasants while the latter were returning from market at Cookstown, county Tyrone, Ire., Saturday. The Protestants resisted, and several of them were roughly handled, two being badly hurt. No arrests were made.

Madrid, Spain, was visited by a terrible storm last week. The returns show that 32 people were killed and 620 were injured. The losses are estimated at \$1,000,000. The number of children killed and injured is remarkable, because the tornado began at the hour when the schools were breaking up. All the booths in the famous San Isidro fair were leveled to the ground. Around Madrid and in the Retiro park thousands of big trees were torn up like shrubs.

Police Magistrate Monroe of Orangeville, Ont., has brought on his head the wrath of the liquor dealers for his action in strictly enforcing the Scott temperance law. Dynamite explosions took place Monday night at his office, and at his residence. The office was wrecked and property adjoining was damaged. The house was badly damaged. The indignation of the people is great. This is the third time explosions have taken place since the initiation of the Scott act.

A GERMAN UNIVERSITY TOWN.

HEIDELBERG, Germany, April 22, 1886.

We left Strasburg for this place in the afternoon and came over a fine, level tract of country; the grass green and the foliage of the trees fast putting out. Our ride of three hours was very enjoyable. We are much pleased with Heidelberg, a clean, well-built city of about 25,000 inhabitants, on the banks of the Neckar. We are now on the Amalage, the grand promenade of the town, at the base of a small mountain called Koenigstuhl, which is very steep and rises 500 or 600 feet above the Neckar. This, to us Vermonters, looks very pleasant and homelike, as it is nicely wooded to the very top. The town is neatly built of stone which is quarried from the side of the mountain. The streets in the older part of the town are for the most part rather narrow; but all are kept scrupulously clean. The town is growing very fast and has every indication of prosperity. Its churches are large and rather pretentious. The finest one is St. Peter's, a Lutheran church built in the fifteenth century. The facade of this church, recently restored, is very fine. It has a tall open-work Gothic tower, which forcibly reminded me of the monument to Sir Walter Scott in Edinburgh. The inside is nicely finished, and the vaulting is supported by ten large columns. We went to this church last Sunday, where over one hundred young boys and girls were confirmed. They were all apparently between the ages of ten and sixteen years, and neatly dressed, the boys in black frock coats with black gloves and a testament in their hands; the girls in black, without bonnets, carrying in their hands a small testament and an embroidered handkerchief nicely folded. It was a very pretty sight to see them all leave the church after the rest of the congregation had departed.

No man has any claims upon the people for the office except such as are suggested by his qualifications and fitness for it. Judged by this standard I submit that Mr. Douglas has claims greater than those of many whose names have been mentioned in connection with the office.

THE CORNWALL CREAMERY.

Editor Register:—Allow us to say through the REGISTER that we opened our creamery on the morning of May 17. The separator is working far beyond our expectations. On Monday we ran 813 lbs. of milk in 45 minutes, making a perfect separation; on Tuesday we ran 1227 lbs. in a little less than 1 1/4 hours.

Wednesday we churned the cream from the 2040 lbs. of milk separated Monday and Tuesday, which yielded 87 1/2 lbs. of butter worked and packed ready for market and weighed without any salt or cloth on the tubs, being a yield of one pound of butter to 23 42-100 lbs. of milk.

We hope before long to be able to repeat upon the sale of the same.

Cornwall, May 20, 1886.

MEMORIAL RESOLUTIONS.

REPORT OF COMMITTEE OF POTTER CHAPTER, NO. 22.

Your committee on resolutions on the death of Companion Samuel Brooks, Past High Priest in Potter Chapter, would respectfully submit the following report:

WHEREAS, the Grand High Priest of the University in his time has seen fit to remove from our midst our esteemed brother, citizen and friend, therefore,

Resolved, That, while we do not question the ruling of Providence, we deeply mourn this dispensation; the white-winged messenger having snatched our companion from us and removed him from leaving a vacant chair at the secretary's desk, one at the family hearthstone, and one at the church. Yet we bow in humble submission to the will and wisdom of Him who directs all things well.

We hope before long to be able to repeat upon the sale of the same.
